I am looking at it. Looks good but I don't see where you defined "u" or "b" in the legend.

Rich,

I was able to upload the map to the OSC website. I uploaded it as "Exclusive".

Thanks

Rupert,

Attached is a draft version of the map you requested. It displays a topographic basemap with the sample locations, identifiers, surface elevation, well depths, and concentrations of As, Mn, Ba, Li, and Na. Please let me know if you have any changes you would like to be made.

The pdf is a geo-referenced file. If you are using Adobe Acrobat Standard X, click View > Tools > Analyze to open the tools. If you are using Adobe Reader X – click Edit > Analysis > Geospatial tool. Thanks and have a great weekend!
